Hi Heather,

DCBID received confirmation that the BIDs are exempt from the Waste Hauling agreements and we just need to use a vendor that is listed on the link below. (see email thread) Is this true? Can you confirm this for us? If so, we may not need to meet.

Let us know.
Thank you for your help on this!
Rena

Good Morning,

See below, I am sure if they exempt the DCBID all BID's would be exempt. I would call Lorena just to be sure and to get it in writing for your respective BID.

Brian K. Raboin
Vice President of Operations

Downtown Center Business Improvement District
640 S. Olive Street | Los Angeles, CA 90014
Call: 213-624-2425 | Fax: 213-615-1655

Subject: recycLA info and Permitted Haulers List

Hi Brian,

As we discussed, the Downtown Business Center Improvement District is exempt from the provisions of the recycLA program, but because Commercial Waste Services is no longer a permitted hauler, you may not continue to contract them.

Below is the link to the list of permitted haulers -- it's divided into two sections -- one is waste haulers (trash); the other is haulers that primarily haul construction and demolition debris, or who are actually contractors that haul their own debris from their jobs. I think you'll find a good substitute in the section marked "Waste Haulers" (the first part of the list).

If you have any questions, please let me know. I'll keep in touch regarding some of the other issues we discussed.
